

## ASAM Criteria Skill Building Training

This two-day, application-focused training provides participants with an in-depth look at the theoretical foundations of the ASAM Criteria, including clinically driven services, biopsychosocial assessment, the six dimensions, continued stay, and transfer/discharge criteria. Incorporating the use of the new edition of The ASAM Criteria, participants have opportunities for skill practice at every stage of the treatment process: assessment, engagement, treatment planning, continuing care and transfer or discharge. Expert instruction by Scott Boyles, Senior National Training Director.

Registration is first come first serve.
