

LAZARUS

COLLABORATIVE

Are you struggling
with drug or alcohol
addiction?

You don't have to make
this journey alone.

With support from Recover Alaska.

What is the Lazarus Collaborative?

The Lazarus Collaborative project is a network of providers focused on assisting clients in moving into recovery, gaining resilience, and successfully integrating into the community. This collaborative will provide the individual with primary care, medication management, medication-assisted treatment (MAT), mental health treatment, employment and housing services, behavioral health and addiction treatment, peer support, care coordination, and case management. Collaborative Care Coordinators from True North Recovery will help each individual identify needed services and find the care and resources they need.

“Tell me, what is it you plan to do with your one wild and precious life?” – Mary Oliver
